CHILD SAFETY PACKAGING

CHILD RESISTANT PACKAGING

Accidental ingestion of coin cells is a real risk: stuck in the oesophagus, a cell of more than 2 V causes electrolysis and severe chemical burns. That is why KODAK lithium coin cells come in **child resistant packaging** with the safety warning icons recommended by IEC, telling consumers to keep them out of reach of children.

SUPERMARKET PROMOTION

BUY XTRALIFE 5+5, WIN A CHARMERA

A battery purchase that becomes a moment to share. Example of a campaign with a dedicated display and a social media prize draw.

HOW IT WORKS

Every customer who buys a blister of **Kodak Xtralife 5+5** scans the QR code on the display, follows the retailer's Instagram account and enters the monthly prize draw for a **Kodak Charmera**. Three draws during the Christmas campaign keep the display active and the channel growing.

A Kodak Charmera

THE DISPLAY

- **Header** "Win a Kodak Charmera", visible from the aisle.
- **Side panel** in Kodak yellow: visibility from any angle.
- **QR** straight to the prize draw page.
- **Base** co-branded with the retailer.

WHY IT WORKS

- Batteries are an impulse, high-frequency purchase.
- A desirable prize turns a routine purchase into an experience.
- Every participant is a new follower for the retailer.
